

Report on **Awareness Programme on Environment Protection**

An awareness programme on Environment Protection for the Government Schools in and around Lumding town was organised by Environment & Climate Cell, IQAC and EVS Committee, Lumding College on **19th March and 23rd March, 2021**. The main objective of the programme was to organize and educate the general public about the importance of understanding our environment's vulnerability and its protection. On the first day, members of the organising committee visited Sri Madhav Dev M. E. School, Lumding. The program was inaugurated by Dr. Sanghamitra Das Bose, Head, Department of Zoology, Lumding College. In her speech, she talked about the necessity of the conservation of the environment and the role of students in this. She also mentioned that teaching about different environmental issues from a young age would help the students to assimilate the concept in daily life and to make it a habit. Next, Dr. Satyajit Das, Assistant Professor, Department of Zoology, Lumding College talked about sustainable development and urged that the students must teach their families and neighborhood about sensible use of energy and resources. According to him, our small actions in daily life could make big difference in the society. Next, the committee interacted with the students and addressed their queries on environment protection. At last, dustbins were donated to the school. The second day was a demonstration day where the members of the cell show the students proper use of dustbins and how to

segregate waste before disposing them off. Thus, the awareness programme came to an end successfully.
